

## CURT'S CAFE SOUTH

Through a generous award from Beth Emet's Tzedakah Fund Committee in winter 2015, [Curt's Café South](#) was able to begin its student stipend program.

Curt's Cafe is an innovative workforce development program that provides training in food service and life skills to underserved youth in Evanston.

Through training and onsite social services, they support students on their pathways to productive, dignified members of our community. Curt's Cafe South works specifically with young women—many of whom struggle with housing and food insecurity, lack of adequate childcare, and poverty. These young women are determined to build positive futures for themselves, their families, and their community. Curt's staff, volunteers, and board members nourish these young women physically, intellectually, and emotionally.

Thanks to a \$500 award from the Beth Emet Tzedakah Fund, five young women completed Curt's Cafe South's program this past year; three are enrolled in college and two are working locally in food services.

Curt's Cafe appreciates Beth Emet's support and hope that you will visit to dine with a purpose.
